Monroe High School Dance Guidelines

At Monroe High School, we encourage young people to enjoy themselves in constructive and positive ways. This is especially true at our school-sponsored dances. Our expectations, however, is that our students will represent themselves in a manner appropriate for young adults. We consider several types of dancing inappropriate and unacceptable at high school functions. It is because of this, and our desire to help young people understand levels of acceptability, we have developed the following guidelines for behavior at dances:

The guidelines are as follows:

- **There will be no moshing, running or jumping into other individuals or lifting others off the ground.**
- **There will be no dancing in a sexual or sexually suggestive manner. Young people should not imitate sexual acts while dancing and should dance in an upright position.**
- **M.H.S. dances are for M.H.S. students and their pre-approved dates only.**
- **School dress code rules apply to dances**.

If inappropriate actions occur, the individuals will be confronted and asked to stop. If the inappropriate behavior continues, the individual may be removed from the dance floor and asked to leave the dance. **No refund will be given.**

If this problem continues in a large scale, the dance will be temporarily stopped and the problem addressed. Other steps that may be utilized are that the lights may be raised and the music genre changed.

I understand the above stated expectations and agree to abide by them while at any Monroe High School dance.
